

## Findlay High School – General Supply List Supply List - 2022-2023

**\*Note:** Since high schools don't usually provide school supply lists, here are some ideas to help students get prepared for the first day of school. During the first couple days of school the teachers will let the class know what will be needed for class. However, given the timing of the first week of school, it sometimes means parents and students miss out on some great supplies sales. While this is just a general list, it might just save you a trip to the store and a little money that first week of school.

### Grades 9-12

- **Three- ring binder for each class.** While it depends on the Teacher's preference, most core classes (English, Math, Science, and History) ask that you have a binder specifically for the class. (Don't forget it is ok to reuse binders that you already have if they are still in working condition).
- **Dividers for each binder** 5-8 tabs are a good idea. Feel free to be creative with this! Reuse dividers from previous years or make your own kind of divider with cardstock paper or old folders. Anything that sticks out and allows for you to divide your papers into sections works well.
- **Loose sleeve notebook paper-** Always have paper ALL year long.
- **One subject Notebooks** are great for specific journals for projects that might come up.
- **Folders-** One for each class for handouts or homework that you don't want to lose.
- **One box of colored pencils and a glue stick.** (a good idea so you don't find yourself stuck the day before a project is due).
- **#2 pencils** with erasers - ALL year
- **Blue or Black pens-** (Some teachers will not allow colored pens).
- **1-2 Highlighters** would be a good idea for reviewing notes and finding keywords on worksheets.
- Try to have access to some sort of **dictionary!**
- Last, but not least, **a box of tissues** is a really nice thing to bring into some of your classes. Some teachers request tissues, some do not. Sometimes it ends up being a bonus assignment. (Any size, any brand of tissues works)
