

SMOKING PROHIBITIONS

Recognizing that medical professionals have determined that the use of tobacco products is a health hazard, and further recognizing that modeling such behavior by school employees and other adults in the presence or with the knowledge of students encourages such behavior, the Board prohibits smoking or any other use of tobacco products:

1. In all District-owned, leased, and/or contracted by buildings;
2. In all District-owned, leased, and/or contracted for buses or other vehicles;
3. On all District-owned, leased, and/or contracted for grounds; and
4. At all school-sponsored functions.

Enforcement of this Policy is responsibility of the Superintendent (or designee).
