

HOMework

The Board of Education acknowledges the educational validity of out-of-school assignments as adjuncts to and extensions of the instructional program of the schools.

“Homework” shall refer to those assignments to be prepared by the student outside of the school or independently while in attendance at school.

Homework which is properly designed, carefully planned and geared to the development of the individual student, meets a real need and has a definite plan in the educational program. It is assigned to help the student become more self-reliant, learn to work independently, and improve the skills that have been taught, and complete certain projects such as the reading of worthwhile books and the preparation of research papers. Home study assignments, also, afford a way for parents to acquaint themselves with the school’s program and their own children’s educational progress.
