

POST-SECONDARY ENROLLMENT OPTIONS

The Board of Education recognizes the value to students and to the District for students to participate in programs offered by accredited colleges and universities in Ohio.

The Board will approve participation by students in grade 9, 10, 11, 12 or attending Millstream Career and Technical Center who meet the State Board of Education's criteria, to enroll in approved post secondary programs while in attendance in the District. Students will be eligible to receive secondary credit for completing any of these programs providing they meet the established requirements. Such credit will count toward graduation requirements.

No student may participate without the written consent of the Superintendent and for those students under the age of eighteen (18) the written consent of the parents or without attending the counseling services offered in relation to this educational option.

When a student is expelled, the Board directs the Superintendent to send written notice of the expulsion to any college in which the expelled student is enrolled under R.C. 3365.03 (Postsecondary Enrollment Options) at the time the expulsion is imposed. This notice shall indicate the date the expulsion is scheduled to expire and that the Board has adopted a policy under R.C. 3313.613 to deny high school credit for postsecondary courses taken during an expulsion. If the expulsion period is later extended, the Superintendent shall notify the college of the extension.

The Board elects to recover from the student/parent all costs incurred by the District when and if a student fails to complete a college course, whether through a formal "class-drop" process or nonattendance other than for reasons generally accepted by the School District. Colleges will notify the School District within fourteen (14) days of a participating student's failure to complete the course(s) as a result of a formal "class-drop" or failure to attend classes regularly. The Board will recover from the student/parent all costs incurred by the District when and if a student fails a college course.

The Superintendent shall establish the necessary administrative procedure (8.23a) to ensure that such programs are in accord with State regulations and are properly communicated to both the students and their parents. The Superintendent shall also establish guidelines and procedures for the awarding of credit and the proper entry on a student's transcript and other records of his/her participation in a post secondary program.

R.C. 3316.613, 3365.01 through 3365.09

Adopted 10/8/2012
