

Denial of Permission for Internet Access by Parent/Guardian

School Year _____

I have reviewed the Student Acceptable Use Policy – BOE Policy 9.21, which describes the terms of student access to interconnected computer systems, computer equipment, computer programs, the Internet, electronic mail and other new technologies within the Findlay City School District.

As the parent of a student who is under the age of 18, **I DO NOT** wish the undersigned student to have access to the Internet via the School District’s computer network. By signing below, I understand and agree that the undersigned student:

- May be required to complete alternate assignments as a result of this denial of permission for Internet access;
- Will have access to interconnected computer systems, computer equipment, computer programs, electronic mail and other new technologies within the School District, other than Internet;
- Will be obligated to comply with all remaining terms of the Acceptable Use Policy (i.e., those that do not relate directly to Internet access).

I further understand and agree that while the School District will undertake reasonable measures to ensure that the undersigned student does not access the Internet via the School District’s computer network, it is not technologically feasible to guarantee that such access will be preventable under all circumstances. As such, I understand and agree that the ultimate responsibility for ensuring that the undersigned student does not access the Internet via the School District’s computer network is that of the parent/guardian and the undersigned student.

The Denial of Permission for Internet Access will be limited to the School Year requested above.
