

CCP at Millstream Career Center

Millstream Career Center offers College Credit Plus (CCP) in 9 of our programs. Here are important things to know in order to participate:

- **INTENT FORM:** Complete the *“Intent to Participate”* form at your home school prior to April 1st. This will enable a student to be able to participate in CCP. Even if a student hasn't been accepted to Millstream yet, it is good practice to sign the *“Intent to Participate” Form* so that they will be eligible for CCP. *This is an important form- without this, a student can NOT take CCP!! This form will need signed EVERY year in order to remain eligible to participate.
- **APPLICATIONS:** Due to Millstream Career Center servicing 14 school districts, Millstream will assist your student in applying to the appropriate college (Rhodes or Owens) for CCP in the fall/spring.
- **ACCUPLACER:** In the fall/spring of next school year, all MCC students will be given a college entrance exam from Rhodes or Owens. They need to score within a certain range to qualify for CCP. *A student will not be able to take a CCP class if they don't meet the prerequisites for the college.*
- **REGISTRATION:** After a student has completed the Intent to Participate form, the application and met requirements for the Accuplacer, students will be registered for the CCP course at Rhodes or Owens- depending on which program a student is in. This will take place in the fall/spring.
- **TRANSCRIPTS:** Students will need to acquire a transcript from the college that issues the CCP credit (Rhodes or Owens). Once a transcript is obtained, you may then transfer credits to other colleges/ universities.
- **Questions:** Please contact Ms. Marla Stacey (Millstream Career Center counselor) at (419) 420-3353 or email Mstacey@fcs.org

2019-2020 MCC Programs and CCP Courses

- **Automotive Technology I-** AUT 110 Auto Service Fundamentals (2 college credits) Owens Community College
